

Just wanted you to know I love my satellite radio. I do not live in an area that has the traffic and weather yet, but I travel frequently and use it when I am on the road....Please do not make an effort to take that away from me. Satellite radio has changed the way I listen and how I am as a person. Wheather its music to soothe my soul at the end of a hard day at work, making money to pay my taxes, or listening to the GREAT talk radio that gives me insight into the moves YOU make in Washington. Please dont take the best, clearest, radio away from me!!
